

One stop solution

TURNKEY

More and more frequently, companies look for solutions which allow them to completely delegate all the technical phases of a project, from studies to entry into service, and sometimes beyond. Global and integrated solutions, known as “Turnkey”, guarantee optimised costs, reduced delivery times and an optimum performance level for all projects.

Our Mission

To provide clients with a one point contact for the total project requirements.

We offer the complete package from “Concept to Commissioning”

Our areas of specialization are

PETROLEUM INSTALLATIONS

- Underground/Aboveground Tank Farm Installations
- LPG/Other Gas Bullets (Tanks) Bulk Installations
- Gas Manifold Installations (Vapor Off-take/Liquid Off-take)

UTILITIES

- Piping fabrication for all mediums
- Utilities Installation (Compressors/Blowers/Air receivers etc)
- Cryogenic Installation (Liquid Nitrogen/Oxygen/Other gases)

We also provide services in

- Fire Fighting & Detection Systems
- Consulting (Safety Consultation & Engineering)
